

# High Country Audubon Society

## FIELD TRIP REPORT

LOCATION: Morganton Greenway .

DATE: 11/10/2010 TIME: (from) 08:45 (to) noon

WEATHER: Cold but sunny .

LEADER(S): Janet Palmer & Mode .

NUMBER IN GROUP: 7

### HIGHLIGHTS:

We could not have asked for a more perfect autumn day to go birding! There was still color and leaves on the trees in the park. And thanks to Julia Mode and Janet Palmer some of us went to the beautiful and very birdy Morganton Greenway. Seven of us made the trip from Boone to arrive around 8:45am to meet Julia at the Greenway. We had a wonderful day.

Some people did ask us what birds we were seeing and most were astonished at the different species that we had spotted, so we are spreading the Audubon message wherever we go that to look around will yield *many* beautiful birds! Everyone had a great time outside on this beautiful day.

## FIELD TRIP REPORT
